Dear Sir

RE: ESTABLISHMENT OF E-GOVERNMENT

The Executive of Malawi Government executes its mandate through Cabinet which comprises the Presidency and various Ministries. One of the established Ministries is the Ministry of Information and Digitalisation.

The mandate of the Ministry of Information and Digitalisation is to provide policy direction and guidance in the production and dissemination of public information, coordinate and manage ICT development and services. In order to execute this mandate, there are two Technical Departments that were established namely: The Department of E-Government and The Department of Information.

The Department of E-Government is responsible for coordinating and managing all ICT development and services. It is

against this mandate, that the Department wishes to procure Internet Protocol (IP) Addresses for Malawi Government to facilitate the digitalization of its public services.

I would be very grateful if you facilitated the procurement of the IP Addresses and that this letter serves as proof of existence of the Department of E-Government.

Yours faithfully,

Gospel Kazako

MINISTER OF INFORMATION AND DIGITILISATION
